Commercial kitchens produce lots of hot waste water which under new EU legislation can be discharged if below 35°C. This water can be used efficiently for preheating fresh water.

We offer heat exchangers specially for this industry:

Components: Tube heat exchangers

- M-Tube (tube-in-tube twisted tube heat exchanger) : Process waste water

Systems: customized

- MI-4000 (complete turn-key heat recovery system)
- Customized waste water heat recovery systems

Besides, we also provide individual solutions to every customer's needs. In addition to the sale of components, we are also specialists in the installation of complete heat recovery systems on turn-key basis.
