Heat exchangers are also used for many processes and areas in HVAC.

We offer heat exchangers specially for this industry:

Components: Tube heat exchangers

- C-Tube (coiled tube heat exchanger) : Steam systems, district heating

Components: Plate-type heat exchanger

- B-Plate (brazed plate-type heat exchanger) : Cogeneration, floor heating, hot water preparation, air-conditioning, heat pumps, system separation, solar systems

- G-Plate (sealed plate-type heat exchanger) : Cogeneration, hot water preparation, heat pumps, system separation, swimming pool and solar systems

- V-Plate (air/air crossflow plate-type heat exchanger) : Heat recovery from drying processes

Besides, we also provide individual solutions to every customer's needs. In addition to the sale of components, we are also specialists in the installation of complete heat recovery systems on turn-key basis.
